II.3) Information on framework agreement

The notice involves the establishment of a framework agreement: no

II.4) Short description of nature and quantity or value of supplies or services:

Tranum Klitplantage (Tranum dune plantation) contains the only known mapped resource of extractable, low-iron-content, white shifting sand in Denmark. The sand resource's low iron content (less than 0.4 % Fe₂O₃) is a quality requirement in the production of white cement.

The Danish Nature Agency wishes to sell approx. 80 ha (phase 1) of the project site at Tranum Klitplantage so that the sand resource can be fully exploited.

Please notice that this announcement is not an invitation to tender in accordance with the EU procurement rules, but an announcement where the Danish Nature Agency invites expressions of interest from companies interested in purchasing the project site.

When buying the project site, the buyer accepts all obligations as an owner to the authorities, including authority approvals and compliance with licence requirements, e.g. establishment of replacement forest, restoration and rebuilding of the site etc.
